

NETMGA
Northeast Tennessee Master Gardener Association

PROJECT GRANT APPLICATION*

1. Project Name

Family Promise Park and Garden (*Must be an approved NETMGA Project*)

2. Proposal (description of what you would like to do)

Install an ABC Garden. Will have plants and some identification throughout the area. For example under the existing apple tree, a wooden apple (A), where there are beans planted a child's large block (B), and in the carrot or catnip row a Bronze Cat (C), and under the Dogwood tree, a Dog, etc until we get to a Zebra in the Zinnia.

3. Amount of money requested (Maximum is \$300.) \$230.

4. Anticipated benefits of Grant Fund

The proposed project is located behind the Family Promise Day Center and a short distance from Carver Park, where there are many children. The location is also only a couple blocks from Johnson City Library. The purpose is a learning tool for children, but also can be entertaining for adults.

5. How will you determine the success of the project?

Do those that view the garden enjoy their encounter? We find this out via their feedback we receive. Do individuals come back and bring others? Finally, do we assist children learning and perhaps becoming gardeners?
